

Blast 7/8/2020

- Meal deliveries: Please again be reminded that meal deliveries continue every Monday and Wednesday between 11am and 1pm. There is no cost, and you may take what you need for your scholars and loved ones.
- Summer eTutoring is now in its 3rd week. Participating scholars need to make certain they are completing assignments: Scholars receiving a grade of incomplete for the 4th quarter MUST comply, or face the possibility of retention in their current grade. The good news is that eTutors are reporting meetings and assignments are going well, so keep up the good work.
- Staffing news. Mrs. Lynn Fredrick, our loyal, passionate, and extraordinary Advancement Director, will begin a well-deserved retirement in August of this year. She has done a remarkable job during her tenure with us, helping us to accomplish our goals and Mission. Countless dollars have been raised by Mrs. Fredrick, and lifelong connections with friends and alumni of St. Angela St. Angela School were made. Thank you Mrs. Fredrick for your loyalty, hard work, and love for all of us at St. Angela School. You are a difference maker, and leave a legacy and an imprint that will last for years to come. God bless!
- With that said, St. Angela School joins in welcoming our new Advancement Director, Mrs. Donna O'Meara, who will work diligently to author grants, and work with alumni, donors, and benefactors to keep St. Angela School viable and sustainable. Welcome aboard Mrs. O'Meara, we look forward to working with you!
- As you know, St. Angela School will be reopening and begin receiving scholars Monday, August 17th, which is our first official day of school. To that end, we are asking our parents at home to help prepare scholars for what promises to be a FANTASTIC school year. You can help as follows:
 - **Have your scholars practice wearing a mask at home**, as they read books, work on computers, watch TV, or bake brownies. They need to get used to wearing a mask. Gradually increase the time, until they are used to wearing a mask for a long period of time.
 - **Have your scholars practice hygiene standards.** They need to practice washing their hands with SOAP for 20 seconds, or using hand sanitizers when soap and a sink are not accessible.
 - **Have your scholars practice social distancing.** Scholars should first know what this means, and then how this affects their interaction and play with others.

- The Archdiocese of Chicago is announcing health and safety protocols and procedures for our school reopening THIS WEEK, which will help St. Angela School to further develop and refine our existing plans for keeping our scholars, school staff, and school patrons safe and healthy. Once this information is received, it will be posted on our social media, and sent home to families via email.

Thank you all for making St. Angela School all it is. Be safe, stay strong, and God bless everyone!
